

NDOT Opens Public Information Project Hub

The Nevada Dept. of Transportation (NDOT) is opening a public information hub to highlight major projects in Clark County. Developed as a one-stop information shop, members of the public will have the opportunity to gather information on all major NDOT projects in southern Nevada. NDOT's Outreach Office is located at 3828 Meadows Lane off Valley View Boulevard.

Project maps, timelines, fact sheets, animations and progress updates are just a few of the information pieces available to the public. Public information staff is available to discuss issues, take comments and answer questions.

"We are excited to bring a wealth of public project information under one roof," said NDOT Director Susan Martinovich.

"We hope this will make it more convenient for members of the public to gather the information they need on major freeway projects affecting their lives."

NDOT will soon launch a Web site with information on major freeway projects throughout southern Nevada where interested citizens can review project information, sign up for e-mail updates and provide feedback. The NDOT Southern Nevada Public Outreach Office is open Monday through Thursday from 8 a.m. to 5 p.m. and Fridays from 8 a.m. to noon. For more information, please call 702-486-0486.

For more information on the Nevada Dept. of Transportation, visit the Web site at www.nevadadot.com.

Facility Operator Certification Classes Offered

This series of courses can lead to facility operator certification. One-day courses include continental breakfast (begins at 7 a.m.), lunch, refreshments and free parking. Each course begins at 7:30 a.m. and concludes at 4 p.m. and is held at the UNLV Stan Fulton International Gaming Institute, 801 E. Flamingo Road, Las Vegas. NSHE awards 0.7 CEU and 7 PDH per course with certificate. Discounts may apply.

Register online at www.nvfocus.com, and select the Southern Nevada link.

FOCUS TRACK I

Tuesday July 22, 2008 - LEED and Green Building Concepts

- Design goals and Project Objectives
- Integrating Concepts into Projects
- Alternative Energy Sources
- Passive Energy Conservation Measures – Thermal Envelope Systems

(See FOCUS, Next Page)

Bid Opportunities

City of Reno

2008 Sewer Rehabilitation - Phase I

Project# 22192; Contract# 22192-1780; PWP# WA-2008-311
Due: 6/24/08 - 2:00 p.m.
Contact: City of Reno at the office of the City Clerk, 2nd Floor, One East First Street, Reno, NV

County of El Dorado, CA

Sawmill 1B Bike Path Project

A pre-bid meeting 6/20/08 - 2:00 p.m., El Dorado County, 924B Emerald Bay Road
Due: 6/27/08 - 2:00 p.m.
Contact: El Dorado County, 924B Emerald Bay Road, South Lake Tahoe, CA

Tahoe Truckee Unified School District

Donner Trail Asphalt Project

Non-mandatory Pre-Bid meeting 6/12/08 - 1:00 p.m., Donner Trail Elementary School, 52755 Donner Pass Road, Kingvale, CA 95728
Due: 7/1/08 - 2:00 p.m.
Contact: Tahoe Truckee Unified School District - 530/308-6490, 11603 Donner Pass Road, Truckee, CA 96161

Sub Opportunities

RFQ - **McCarthy Building Companies, Inc.** as Construction Manager at Risk (CMAR) for the State of Nevada Public Works Board is soliciting statements of qualifications from specialty contractors for the Construction of Tenant Improvement Building B UNLV Bio-Medical Research Building at Shadow Lane Campus, SPWB Project # 07-C89. The project consists of tenant improvement for roughly 30,000SF area for bio-medical research facility with an estimated cost of \$8,500,000. To bid on this project, subcontractors need to be included on the "qualified bidders list" with the state of Nevada Public Works Board. To apply, applications can be obtained on line at <http://spwb.state.nv.us>. Documents for bidding purposes will be ready approximately July 10, 2008. All subcontractors must possess a license from the "State Contractor's Board" in the specialty classification(s) applicable to the work categories for which they are submitting bids. McCarthy, an equal opportunity employer, invites all businesses, which includes woman owned, minority owned, and disadvantaged business enterprise companies to participate.

Facility Operator Certification Classes Offered

Tuesday August 19, 2008 - Project Economics

- Cost Benefits Analysis
- Life Cycle Costing – Energy Assessments
- Value Beyond the Building
- Investments/return on Investments (ROI)

FOCUS TRACK II

Thursday July 24, 2008 Electrical Systems – Part I

- Basic Applied Electrical Theory – Ac and DC
- Electrical Distribution – Primary and Secondary
- Lighting Fundamentals
- Efficient Lighting and Controls

Thursday August 21, 2008 Electrical Systems – Part II

- Electrical Control Circuits
- Motor Theory/Selection Start up
- Electrical Motors-Variable Speed
- Low Voltage Systems Telecom/Sec

Thursday September 18, 2008 HVAC - Part I

- Central Plant Boilers, Chillers, Coolers
- Air Handlers – Constant & VAV
- Hydronics Systems, pumps, & Treatments
- TAB – Air & Water Systems

Thursday October 16, 2008 HVAC - Part II

- HVAC Systems & Controls-Elect.
- Ventilation
- Indoor Air Quality (IAQ)
- Housekeeping & Cleanliness

Thursday November 20, 2008 Energy Management Systems (ECMS)

- Why EMS – What it can do for you
- Data Visualization – Optimizing EMS Capabilities
- Energy Management – Optimizing Utility Rate Structure
- Computerized Maintenance Management Systems (CMMS)
