

Do Your Part - Help Fight Unlicensed Contracting

Nevada contractors -- are you tired of unlicensed contractors taking away your business? If the answer is "yes," then see how the Nevada State Contractors Board can help you fight this problem.

The NSCB has developed a new "Unlicensed Contractor Awareness Campaign" that will empower licensed contractors throughout the state to combat unlicensed contractors.

The campaign revolves around licensed contractors displaying and distributing NSCB brochures, a poster and handouts in their businesses. Homeowners will learn the dangers of hiring unlicensed contractors.

By educating homeowners

about hiring licensed contractors, along with ways they can protect themselves from unlicensed contractors, you may also help reduce crimes committed by unlicensed contractors.

Many homeowners are not aware that if an unlicensed contractor gets hurt on their property, they may be liable because unlicensed contractors don't have Workman's Comp insurance.

If every licensed contractor displays and distributes our brochures in their businesses, more people will be aware that all contractors need to be licensed and qualified to work in their respective trades.

As part of the campaign, all licensed contractors may request a free informational

packet with samples of brochures, an Unlicensed Contractor Hotline card with contact telephone numbers for reporting unlicensed activity, handouts and a laminate "Unlicensed Contractor Awareness" poster, which may be displayed in their businesses.

In the packet, contractors will also be provided with instructions on downloading other NSCB online brochures. Contractors will be able to request other informational materials, free of charge, that may not be available online.

By partnering with the NSCB, all of us can build awareness throughout the state of the dangers of hiring unlicensed contractors.

To request your free informational packet, please send your name, company's name, license number, address and phone number via e-mail to:

Notice of Approved Fabricator Program Policy Change

Effective immediately the **Clark County Department of Development Services –Building Division (CCDDS-BD)** will no longer accept the City of Los Angeles Steel Fabrication Certification as a substitute for the CCDDS-BD required Annual Third Party Steel Fabrication facility Audit. This also applies to fabricators requesting a CCDDS-BD Project Specific Approval.

Steel fabricators holding a current American Institute of Steel Construction (AISC) Steel Fabrication Certification and/or an International Accreditation Services (IAS) steel fabricator accreditation will not be affected by this policy change. The CCDDS-BD Annual Renewal and Project Specific approval requirements will remain unchanged.

Steel fabricators that are currently approved by CCDDS-BD that do not have a current AISC Steel Fabrication Certification or an IAS accreditation shall be required to have a CCDDS-BD approved third-party auditing agency perform the required annual fabrication facility audit.

The steel fabricator shall complete the CCDDS-BD steel fabricator renewal application, indicating on the application the CCDDS-BD

approved third party agency the fabricator wants to perform the required audit and shall submit the application along with the required renewal fees to CCDDS-BD.

The approved auditing agency and the steel fabricator shall schedule a date for the in-plant audit to be performed. The auditing agency shall contact CCDDS-BD and request an audit package and identify the auditor who will be performing the audit. CCDDS-BD will provide an audit package to the approved third party auditing agency, chosen to perform the audit. After the audit has been completed the approved third party auditing agency shall return the completed audit package to CCDDS-BD for review and disposition.

Approved steel fabricator third-party auditing agencies can be found on the Clark County website: **www.accessclarkcounty.com**.

For more information, contact Kenneth Konrad, Building Inspection Specialist, Clark County Building Department, at: (702) 455-2734.

TMCC Classes Announced

Forklift Safety Training — Regardless of your forklift driving experience, further your safety and operational skills. Learn the safe operation of forklift styles such as sit-down, stand-up, rider, pallet jack and order pickers. In addition, learn about the stability triangle, load safety, safety inspections and more. Classes will be held on **May 16 from 8 a.m. - 2 p.m.** at the TMCC IGT Applied Technology Center 122. The cost is \$79. For more information on registering, go to the TMCC website at www.tmcc.edu and click on Continuing Education, or call: (775) 829-9010.

Forklift Train-the-Trainer — Learn how to train your employees in the safe operation of forklifts such as sit-down, stand-up, rider pallet jack, reach trucks, order pickers and more. Receive a model program, handouts and training outlines. The class will be held **May 29 from 8 a.m. - 5 p.m.** at the TMCC IGT Applied Technology Center 112. The cost is \$200. For more information on registering, go to the TMCC website at www.tmcc.edu and click on Continuing Education, or call: (775) 829-9010.

8 Hour Hazardous Waste Operations Refresher — Prerequisite: 40-hour HAZWOPER certification. If you are currently certified to work with hazardous waste, you can comply with the annual training requirements set forth by OSHA's 29 CFR 1910.120 standard by taking this class. Learn about new legislation and refresh on the nine hazard classes and waste classifications, hazardous waste chemistry, the hazards of lab packs, the limitations of personal protective equipment and more. If you have a current medical clearance and your own air purifying respirator, take the opportunity to receive your annual fit testing for no additional fee. The class will be held **May 15 from 8 a.m. - 5 p.m.** at the TMCC IGT Applied Technology Center. The cost is \$165. For more information on registering, go to the TMCC website at www.tmcc.edu and click on Continuing Education, or call: (775) 829-9010.
