**PROPOSED REGULATION OF THE
STATE CONTRACTORS' BOARD**

LCB File No. R047-23

November 29, 2023

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§ 1 and 5-8, NRS 624.100; §§ 2 and 3, NRS 624.100 and 624.112; § 4, NRS 624.100 and 624.282; §§ 9 and 10, NRS 624.570; § 11, NRS 624.100 and 624.570.

A REGULATION relating to contractors; revising the qualifications required of compliance investigators and criminal investigators employed by the Investigations Office of the State Contractors' Board; revising provisions relating to the expiration of an inactive license; revising provisions relating to disciplinary action by the Board; revising provisions relating to the Commission on Construction Education; removing requirements relating to the election of officers and filling of vacancies; removing requirements concerning the period within which an applicant for a contractor's license must furnish certain security; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the State Contractors' Board to: (1) establish an Investigations Office which consists of criminal investigators and compliance investigators who enforce the provisions of existing law governing contractors; and (2) adopt regulations setting forth the qualifications for such investigators. (NRS 624.112) Existing regulations include, without limitation, a requirement that each investigator have certain specific combinations of experience and education or some combination of experience and education determined to be sufficient by the Board. (NAC 624.135, 624.136, 624.137) **Sections 2, 3 and 11** of this regulation revise the qualifications for criminal investigators and compliance investigators. For a compliance investigator, **section 2** removes: (1) the requirement that a compliance investigator have a valid certificate in construction skills issued by a nationally recognized organization; and (2) the combination of a bachelor's degree in certain areas and at least 3 years of experience in the construction industry as a specific combination of education and experience for compliance investigators. For a criminal investigator, **section 3** removes the combination of a bachelor's degree in certain areas and at least 4 years of experience in law enforcement or criminal investigations as a specific combination of education and experience for criminal investigators. **Section 11** of this regulation repeals certain existing qualifications for criminal and compliance investigators related to age, citizenship, knowledge, moral character, criminal history, training and examinations, ethical standards and background checks. (NAC 624.137) **Sections 2 and 3** also preserve certain other existing qualifications by reenacting in **sections 2 and 3** requirements

that such investigators possess a Nevada driver's license, be insurable as drivers under a motor vehicle liability insurance policy obtained by the Board and not have an active contractor's license.

Existing law authorizes a contractor to apply to the Board to have his or her license placed on inactive status, and provides that the maximum period for which an inactive status is valid is 8 years after the date that the inactive status is granted. (NRS 624.282) **Section 4** of this regulation makes a conforming change to increase from 5 to 8 years the period after which a license placed on inactive status will expire if the license is not returned to active status. (NAC 624.635)

Existing regulations establish general procedures for disciplinary action and practice before the Board. (NAC 624.6975-624.7296) Existing regulations: (1) deem the address of an applicant or licensee which is on file with the Board to be the correct address; and (2) impose a duty on an applicant or licensee to provide the Board written notice of any change of address within 30 days. (NAC 624.710) **Section 6** of this regulation provides that if a document related to the imposition of disciplinary action by the Board is authorized to be served by mailing or sending the document to an applicant or licensee at a physical address, the mailing or sending of the document to the address on file with the Board is deemed to be a valid and effective service.

Existing regulations authorize the Executive Officer of the Board to withdraw a complaint against a licensee at any time before the Board holds a hearing on the complaint, but provide that only the Board is authorized to withdraw a complaint once a hearing is commenced. (NAC 624.7259) **Section 7** of this regulation authorizes the Executive Officer to withdraw a complaint at any time, including after a hearing is commenced.

Existing regulations establish procedures for filing written motions with the Board, including that a party who wishes to oppose a motion must file and serve a written response not later than 14 days after receiving the motion. (NAC 624.7273) **Section 8** of this regulation adds requirements for: (1) a party to serve and file the initial written motion not later than 20 days before the date of the hearing at which the motion may be considered; and (2) the moving party to serve and file any written reply to an opposition not later than 2 days before the date of the hearing at which the motion may be considered.

Existing law creates the Construction Education Account to be used to fund programs of education which relate to building construction. (NRS 624.580) Existing law creates the Commission on Construction Education to: (1) administer the Account; (2) review programs of education which relate to building construction; and (3) distribute grants from the Account for programs that the Commission determines qualify for such a grant. (NRS 624.570, 624.580) Existing law authorizes the Board to adopt regulations which establish the rules of procedure for meetings of the Commission. (NRS 624.570) **Sections 9 and 10** of this regulation revise existing regulations to: (1) establish the principal office of the Commission to be the office of the Board instead of the office of the Secretary of the Commission; and (2) require that all written documents and communications to the Commission be addressed to the Executive Officer of the Board or his or her designee instead of the Secretary of the Commission. (NAC 624.822, 624.826)

Section 11: (1) removes duplicative definitions related to contractors and investigators; (2) eliminates specific procedures for the election of officers of the Board, the filling of vacancies in any office of the Board and notifying the Governor of a vacancy in the membership of the Board; (3) eliminates the requirement that an applicant for a contractor's license furnish the required surety bond or cash deposit within 30 days after receiving notice of approval of the

application unless the Board extends that period; and (4) removes the requirement that any filing made with the Commission include an original and two legible copies. (NAC 624.001, 624.003, 624.070, 624.090, 624.132, 624.133, 624.134, 624.620, 624.6952, 624.6954, 624.6957, 624.828) **Sections 1 and 5** of this regulation make conforming changes related to the elimination of duplicative definitions.

Small Business Impact Statement

EFFECTIVE DATE OF REGULATION:
Upon filing with the Nevada Secretary of State
Proposed Regulation R047-23

1. Background

The Nevada State Contractors Board (NSCB) proposes amendments to the Administrative Code in response to Executive Orders 2023-003 and 2023-004 which required the streamlining, clarification, reduction or improvement of existing regulations.

2. Description of Solicitation:

The NSCB has determined that the proposed regulation changes should not have an adverse financial impact upon a small business; therefore, a solicitation process was not entered into. The proposed regulation changes are not expected to negatively impact the formation, operation, or expansion of a small business in Nevada.

3. Does the proposed regulation impose a direct and significant economic burden upon a small business or directly restrict the formation, operation or expansion of a small business?

Pursuant to NRS 233B.0608, the NSCB made a concerted effort to determine whether the proposed regulation was likely to: 1) impose a direct and significant economic burden upon a small business, or 2) directly restrict the formation, operation, or expansion of a small business. As a result of this effort, the NSCB determined that there is no impact upon small business as a result of the proposed regulation.

4. How was that conclusion reached?

To reach its conclusion, the NSCB tailored changes which affect the operation of the NSCB and not small businesses.

Ultimately, no adverse economic effects were identified because the proposed regulation changes do not adversely affect NRS Chapter 624 licensee or those who may seek to become a licensee. These changes should have no impact on small business.

I, Margi Grein, Executive Officer of the Nevada State Contractors Board, certify to the best of my knowledge or belief, a concerted effort was made to determine the impact of the proposed regulation on small business, and the information contained in this statement above is accurate.

Date: 1/18/24
